Comment:

I was unable to attend the meeting on the date I had planned on attending because of a death in the  
family. I definitely am apposed to the Transmission Line running thru my property.I own property that borders the East side of the highway; 77 Acres. I think that the plan that makes  
the most sense and has the least impact on residences is the 230 kV line corridor just east of the  
railroad tracks.
